3. What we support

Organizers and artist should work together from preparation to legacy phase.
We do not get involved in making the projects contents and curation.
We respect ECoCs' initiative and decision.

❑ Mobility Support -Networking -Get direct contact ❑ ECoC's Presentation in Japan	❑ Official projects ❑ Non-labeled projects ❑ Mobility Support	❑ Continued projects ❑ Developed projects ❑ Derived projects ❑ Mobility Support

4. Funding

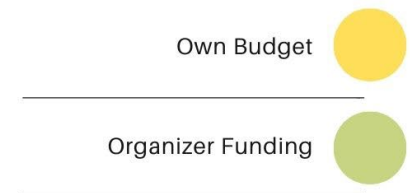

To encourage sustainable project and long lasting relationship, we require organizers and artists to have multiple self fund-raising effort for the application of our support. Organizers and artists that we have supported made a lot of effort to fund-raising, using public and private subsidies or crowd funding campaigns. Please see the Annex 1 for some example of public grant in Japan in the past program.

This is the reason that we can support more and more programs in ECoCs in recent years and we encourage each projects to develop in the future.

Collaboration Funding is very important!
